EDUCATION

Galvanize, Denver, CO — Full Stack Web Development Immersive

JULY 2016 - DECEMBER 2016

Immersive program that focuses on JavaScript fundamentals and modern web full stack skills.

Saint John's University, Collegeville, MN — Accounting w/ Finance Concentration

SEPTEMBER 2011 - MAY 2016

PROJECTS

Hip Food Trucks — HTML, CSS, jQuery, Node.js, PostgreSQL, Heroku, Git/Github

An app that allows hungry people to locate food trucks, see schedules of individual trucks and leave reviews for food trucks. Truck owners can add their trucks, set their schedules and see reviews.

Shop Hockey — HTML, CSS, jQuery, Bootstrap, Firebase

A front end for an online hockey store. It allows you to browse inventory, search for items and create an order.

EXPERIENCE

Sports Authority, Englewood, CO — Store Operations in Training

JUNE 2015 - AUGUST 2015

My work mainly involved taking different internal communication and reporting resources from an older Lotus platform and rebuilding them using Google Apps Script in conjunction with several other Google products to create simpler tools for the company and a smoother overall user experience.

Sports Authority, Englewood, CO — Intern, Store Operations

JUNE 2014 - AUGUST 2014

Created reference documents for company programs and general operating procedures. Also, I used Google Apps Script to ease internal communications.
